DETAILED ACTION

Allowable Subject Matter

Claims 30-58 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious an amplifier stage that has, in combination with other limitations, a first output impedance having positive and negative ends wherein the negative end of the first output impedance is coupled to the drain of the first differential transistor and wherein the first output impedance includes a first shunt peaking inductor, a second output impedance having positive and negative ends wherein the negative end of the second output impedance is coupled to the drain of the second differential transistor and wherein the second output impedance includes a second shunt peaking inductor; neither does it have a first series peaking inductor having positive and negative ends, wherein the negative end of the first series peaking inductor is coupled to the gate of the first differential transistor; a second series peaking inductor having positive and negative ends, wherein the negative end of the second series peaking inductor is coupled to the gate of the second differential transistor; nor does it have a first shunt peaking inductor having positive and negative ends, wherein the negative end of the first shunt peaking inductor is coupled to the positive end of the first output resistor; a second shunt peaking inductor having positive and negative ends, wherein the negative end of the second shunt peaking inductor is coupled to the positive end of the second output resistor; nor does it have a multi-stage differential amplifier that has, in combination with other limitations, the first amplifier stage includes a first pair of

series peaking inductors, a first pair of shunt peaking inductors, and a first pair of miller capacitance cancellation capacitors; and wherein the second amplifier stage includes a second pair of series peaking inductors and a second pair of shunt peaking inductors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
